Strategy summary
The Emerging Markets ex-China Equity strategy aims to outperform the MSCI Emerging Markets ex-China Index by +3% p.a. over rolling three-year periods*. Our active management approach uses a bottom-up, fundamental stock selection process that is research-intensive and risk aware. Diversified exposure across Emerging Markets, excluding China.

Investment philosophy
Across our wide range of equity strategies, our approach for every portfolio is driven by three core beliefs:

- Fundamental research delivers insights that can be used to exploit market inefficiencies
- Environmental, social and governance (ESG) assessment and corporate engagement enhance returns
- Disciplined, active investment approaches can deliver strong outcomes for our clients

At the heart of every one of our active equity portfolios is a focus on fundamental research, corporate stewardship and engagement – and bringing our very best ideas to investors. We are dedicated to using our resources, tools and on-the-ground expertise to build a wide range of equity portfolios to meet our clients' diverse investment objectives.

Our investment approach
- Our approach aims to identify high quality stocks at attractive valuations and hold them for the long term
- Seeks out mispricing opportunities where the market underappreciates the quality of a company with a long-term horizon
- Invests in companies with strong balance sheets, experienced management and good long term growth potential trading at attractive valuations
- Universe consists of mid-large sized companies across EM and companies which derive a majority of revenue from EM
- Research-intensive, risk-aware analysis results in diversified, fundamentally uncorrelated stock ideas
- Portfolio construction is built from the bottom-up, prioritizing high conviction stock ideas
- Stock selection is the key driver of relative performance over the long term

Key differentiators
- Alpha-generating opportunities are diversified across emerging markets
- High quality approach tends to protect capital during periods of heightened volatility
- Benchmark aware rather than benchmark driven
- Portfolio characterized by higher profitability and lower leverage than benchmark
- High conviction portfolio with high active share

Definition of the firm

Aberdeen (or "the Firm") is defined as all portfolios managed globally by the asset management entities of Aberdeen Group plc (previously abrdn plc) excluding most Private Markets but includes Evergreen funds and investments that provide access to private markets, where investments are semi-illiquid and offer periodic redemption windows. Other Exclusions are Tritax and Platform businesses (defined as Advisor and ii). The Firm inception date is 1st January 2018; and includes track records that either are, or were part of, legacy compliant firms, some of which are compliant from earlier dates: Aberdeen Asset Management plc (compliant from 1st January 1996); Standard Life Investments (compliant from 1st January 1996); and Aberdeen Property (compliant from 1st January 2013). Composite returns, start date and composite and firm assets reported prior to acquisitions represent those of the legacy firm which managed the product at the time. Changes in the firm organisation, investment style or personnel have not caused alterations of historical composite performance. Compliant Presentations produced during the period between the annual period end and the date of release to the market of Aberdeen's financial results will not contain the Firm assets or % of Firm assets for that annual period end. The total Firm assets is material non-public information before the official results release date and to release it in GIPS Compliant Presentations would be against the law: and where laws and/or regulations conflict with the GIPS standards, firms are required to comply with the laws and regulations and make full disclosure of the conflict in the compliant presentation. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organisation, nor does it warrant the accuracy or quality of the content contained herein. Aberdeen claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Aberdeen (formerly abrdn plc) has been independently verified for the periods to 31st December 2025. The verification report(s) is/are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. The effective date of compliance is 1st January 1996.

The inception date of the composite is 28/02/2022 and it was created on 01/08/2022. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. Available on request are a list of composite descriptions and details of Limited and Broad distribution pooled funds.There are no minimum asset levels set below which portfolios are not included in a composite. All returns are presented on an all-inclusive basis and as such all capital gains interest income and withholding taxes have been taken into account in market valuations and returns. All indices are on a gross of tax basis apart from FTSE UK indices which are net of Withholding Tax. There are no Non-Fee-Paying portfolios included in any composite. The Daily True Time Weighted Rate of Return methodology has been used from 2001 apart from unitised Cash, Property, GARS and Myfolio products where NAV performance is used. Prior to this NAV performance was used for all products.The dispersion of annual returns is measured by the range of the portfolio returns represented within the composite for the full period. Dispersion is not calculated for composites with less than five accounts for the whole period. Additional information on policies for calculating and reporting returns is available on request. Gross returns are presented before management, performance, custodial and other fees but after all trading expenses. Net returns are calculated after the deduction of the highest portfolio investment management fee. Risk Statistics are presented gross of fees. Past performance is not an indication of future results.
