Disposal of two French assets for €15.6 million

-22 of the original 27 assets have now been sold as part of the managed wind-down, generating aggregate gross sales proceeds of €415 million-

12 January 2026 - abrdn European Logistics Income plc (the "Company" or "ASLI"), which is in the process of winding down its portfolio of European logistics real estate, announces that it has completed the sale of two further assets in France as part of its shareholder-approved managed wind-down.

The two warehouses located in Bruges (Bordeaux) and La Crèche (Niort) in France have been sold to their existing tenant, the logistics group Dachser France, for an aggregate consideration of approximately €15.6 million. The assets comprise cross-dock parcel facilities providing a combined lettable area of over 10,000 square metres and were constructed in 2005 and 2014, respectively.

The assets were disposed of in line with the values reflected in the Company's Q3 2025 estimated net asset value.

Continued Sales Process

The Company continues to progress its shareholder-approved managed wind-down, with the disposal programme now well advanced. Following these sales, 22 of the original 27 assets have been sold, generating aggregate gross sales proceeds of €415 million before repayment of associated debt.

A further asset sale agreement has been signed and is expected to complete in January 2026, with the Company holding a 5% cash deposit from the purchaser.

The remaining four assets are currently under offer, subject to detailed due diligence and the anticipated signing of sales agreements. Completions are currently expected before the end of Q1 2026. Further updates will be provided in due course, including details of the next return of capital to shareholders.

Details of the Company and its remaining property portfolio may be found on the Company's website at: <http://www.eurologisticsincome.co.uk>
