Definition of the Firm

Aberdeen (or "the Firm") is defined as all portfolios managed globally by the asset management entities of Aberdeen Group plc (previously abrdn plc) excluding Private Markets, Tritax, Finimize and Platform businesses (defined as Advisor and ii). The Firm inception date is 1st January 2018; and includes track records that either were, or were part of, legacy compliant firms, some of which are compliant from earlier dates: Aberdeen Asset Management plc (compliant from 1st January 1996); Standard Life Investments (compliant from 1st January 1996); and Aberdeen Property (compliant from 1st January 2013). Composite returns, start date and composite and firm assets reported prior to acquisitions represent those of the legacy firm which managed the product at the time. Changes in the firm organisation, investment style or personnel have not caused alterations of historical composite performance. Compliant Presentations produced during the period between the annual period end and the date of release to the market of Aberdeen's financial results will not contain the Firm assets or % of Firm assets for that annual period end. The total Firm assets is material non-public information before the official results release date and to release it in GIPS Compliant Presentations would be against the law: and where laws and/or regulations conflict with the GIPS standards, firms are required to comply with the laws and regulations and make full disclosure of the conflict in the compliant presentation. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organisation, nor does it warrant the accuracy or quality of the content contained herein.

GIPS compliance

Aberdeen claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Aberdeen (formerly abrdn plc) has been independently verified for the periods to 31st December 2022. The verification report(s) is/are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. The effective date of compliance is 1st January 1996. The inception date of the composite is 30/04/2014 and it was created on 07/11/2019. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. Available on request are a list of composite descriptions and details of Limited and Broad distribution pooled funds.

Composite methodology

Returns are time-weighted total rates of return including cash and cash equivalents, income and realised and unrealised gains and losses. Returns are shown net of non-recoverable tax, whilst recoverable tax is included on a cash basis. Composites results are weighted by individual portfolio size, using start of period market values. Annual returns are calculated using geometric linking of monthly returns. Exchange rates used are WMR 16:00 Closing Spot Rates. Composites may contain portfolios of different base currencies, translated into a common currency for composite returns using the exchange rates stated above. A fund becomes eligible for inclusion the first full calendar month after funding. Inclusion may be deferred in cases where it has not been possible to implement the investment strategy. Terminated funds leave composites at the end of the calendar month before official notification of termination is received. Results include all discretionary, fee paying accounts of the Firm.

The dispersion of annual returns is measured by the range of the portfolio returns represented within the composite for the full period. Dispersion is not calculated for composites with less than five accounts for the whole period. Additional information on policies for calculating and reporting returns is available on request.

Presentation of Results

Composite Returns - Key Periods

Composite Disclosures

As of: 30-Jun-25

Emerging Markets Debt - 50% Hard Currency 50% Local Currency 2

Gross returns are presented before management, performance, custodial and other fees but after all trading expenses. Net returns are calculated after the deduction of a representative management fee. Risk Statistics are presented gross of fees.

Primary index name

50% JPM EMBI Global Diversified and 50% JPM GBI EM Global Diversified from 01/10/2020, prior 50% JPM EMBI Global and 50% JPM GBI EM Global Diversified .

Derivative instruments

The portfolios in this composite may use foreign exchange forward contracts for efficient portfolio management.? Derivatives are not used to leverage the portfolios.

Composite Description

The composite comprises all discretionary portfolios managed to the firm's Emerging Market Debt: 50% Hard Currency 50% Local Currency strategy without significant country exclusions. The principal investments are government and government related bonds but corporate bonds are also invested in as a secondary area. The principal maturities are Short, Long and Intermediate. Investments are in USD and other emerging market currencies.

Representative Fee Description

The Composite Representative Fee is 0.5%. A pooled fund following this strategy has a model highest institutional investment management fee of 0.5%. A model fee is used to provide indication of the highest fee to be charged to an institutional investor where no institutional fee is available. A segregated account following this strategy has a highest investment management fee of 0.5%. The fee prior to 1st May 2023 was 0.6%.

Disclosure Disclaimer

This composite is a variant of a previous composite "Emerging Markets Debt - 50% Hard Currency 50% Local Currency" closed on 31/08/2019. The decision was made to create two new composites when, the impact of country restrictions on one of the portfolio's became apparent. These two new composites were created as of September 2019. At this point the histories from the original 3-fund composite were reallocated in to 2 new composites. The first one, Emerging Markets Debt - 50% Hard Currency 50% Local Currency 2, comprised of funds following this strategy with no significant mandated country constraints with performance track records since 30/04/2014. And the second composite, Emerging Markets Debt - 50% Hard Currency 50% Local Currency Country Constrained, which includes mandated country constraints comprising of a history since 30/04/2016.

Composite inception: 01-May-14

Measures are annualised for periods greater than 12 months.

Arithmetic calculations are used for the risk statistics in this report.

Risk statistics are only shown when composite is old enough to have 36 monthly returns
