**Performance represents past performance; current returns may be lower or higher. Past performance does not guarantee future results.** The investment return and principal value will fluctuate so that an investor's shares, when redeemed may be worth more or less than the original cost. All returns reflect reinvested dividends and capital gains distributions, but do not reflect the deduction of taxes that an investor would pay on distributions or redemptions. To obtain performance through the most recent month end, call 1-844-383-7289.

## Important Risks

An investor should consider the investment objectives, risks, charges and expenses of the ETFs carefully before investing. To obtain a prospectus containing this and other important information, call 1-844-383-7289 or visit [aberdeeninvestments.com/us/literature](https://aberdeeninvestments.com/us/literature). Read the prospectus carefully before investing.

## Risk Considerations:

- (a) **Market Risk:** Potential losses that may arise from changes in the market conditions which in turn affect the market prices of the investments of the Fund.
- (b) **Issuer Risk:** The value of a security may decline for reasons directly related to the issuer, such as management performance, financial leverage and reduced demand for the issuer's goods or services.
- (c) **Equity Securities Risk:** The stock or other security of a company may not perform as well as expected, and may decrease in value, because of factors related to the company, to the industry in which the company is engaged, or to the market as a whole.
- (d) **Active Management Risk:** The Fund is subject to the risk that the Adviser or Subadvisor may make poor security selections.
- (e) **Foreign Currency Exposure Risk:** The value of foreign currencies relative to the U.S. Dollar fluctuates in response to market, economic, political, regulatory, geopolitical or other conditions.
- (f) **Small-Cap Securities Risk:** Securities of smaller companies are usually less stable in price and less liquid than those of larger, more established companies. Therefore, they generally involve greater risk.
- (g) **Emerging Markets Risk:** Investing in emerging markets involves a greater risk of loss than investing in more developed markets due to, among other factors, greater political, tax, economic, foreign exchange, liquidity and regulatory risks.
- (h) **Foreign Securities Risk:** Foreign securities are more volatile, harder to price and less liquid than U.S. securities.
- (i) **Market Trading Risk:** There can be no assurance as to the price at which, or volume in which, it may at any time be possible to buy or sell Shares in the public trading market.

For more information regarding the risk associated with an investment in the funds, please read the **prospectus**.
